report to the listener

Dear Listener,
 KPFK and Pacifica are under attack from the right wing in Congress. Although we were expecting some sort of challenge from Senator Bob Dole in September, we were surprised by action against us in June in the House of Representatives.

On June 30, the bill that included money for the Corporation for Public Broadcasting (CPB) was reported out of committee in the House. The one big grant that KPFK gets is our "Community Service Grant" (CSG) from CPB. Any public radio station that meets certain basic criteria (like having 5 full time staff and being on the air 365 days a year) is entitled to one of these grants. They are awarded, in part, on a matching basis — about nine cents for every dollar of listener support we raise locally.

An extremely right-wing Republican named Phil Crane introduced an amendment to take away almost all of CPB's money (as he does every year). That failed miserably. Then he introduced an amendment to cut CPB funds by a million dollars. In discussion, he made it clear that he chose this amount because it was roughly equivalent to the five Pacifica stations' CSG grants. He specifically mentioned a "station in Los Angeles" that broadcasts "hate programming." From a couple of other things he said, it was clear he was referring to KPFK, though he never named us.

The amendment only failed to pass by a narrow margin. It may well be that a lot of the reps didn't really know what they were voting on. We're trying to find out more. Anyway, it will certainly come up again in the Senate, in September, where Bob Dole will probably lead the charge.

Their rationale is, in my opinion, a sham. They are saying that the station broadcasts "hate programming," and when giving more details they cite "Afrikan Mental Liberation Weekend." As most of you know, we did indeed have some problems with some parts of AMLW. We've taken some criticism, both internal and external, and have taken some action. But characterizing KPFK that way as a result of part of one broadcast is a gross mischaracterization. Pacifica's mission is to work for better understanding among people. In pursuing this we sometimes present people who say things that are hard to hear, people whose vehemence overwhelms their sensitivity to other groups. When this happens, we try to correct it. But we don't want to correct it by becoming a bland station that won't present anything controversial. That's what our attackers would like all of public broadcasting to be like.

But I don't think for a minute that AMLW is the major issue for most of these folks. The issue is that Pacifica continues to present independent voices, African-American and others, and that we have the audacity to consider the political left a legitimate alternative. They are bothered more by the fact that we run Noam Chomsky, gay and lesbian programming (though they accuse us of being homophobic), Helen Caldicott, and even Jesse Jackson.

BILL THOMAS

The Pacifica Foundation provides the KPFK mailing list to an organization which in turn rents or exchanges, on behalf of the Foundation, mailing lists of other non-profit organizations. If you object to having your name and address used in this way, please write to our Subscriptions Department, enclosing a recent Folio label, and we will omit you from our exchange list.

If your request has already been entered into the computer, the letters "NX" will appear on the top line of your mailing label, to the right of the expiration date.

REPORT CONTINUED

In attacking us, I believe they are also trying to use us in the way a few controversial artists were used to attack the National Endowment for the Arts. They would like to end all federal funding for public broadcasting.

I feel that our listeners pay taxes, too, and deserve to have their station supported just as much as some public TV station that runs William F. Buckley, Wall Street Week, and Masterpiece Theatre.

We are hiring some people to hit the pavement in DC and give our case to the appropriate Senators. We are probably going to have lawyers fees, airfares, and many other expenses to cover. National Pacifica is coordinating a direct mail appeal, which may have reached you already, to raise money for this. Please support this as generously as you are able. Your support in our various fund drives over the years (including the one we've recently finished) show that this station is in fact meeting some real needs. Your support for this campaign will help us fight back.

Please look for the mailing, and listen for the special programming on the issues and updates on our campaign. Besides asking your financial help for our campaign, we will be asking you to make your opinion of KPFK known to people in Congress. As always, when it comes down to it, your support is the key in keeping us going.

JOIN US IN FIGHTING BACK

General Manager Bill Thomas will keep you posted on Pacifica's strategy in his Reports to the Listener (Aug 2 and 9, 9:00 am).

As the campaign clicks off in earnest during the first two weeks of August, tune in for several programs addressing this attack. Please check listings and listen for announcements for other programs airing throughout August and September.

Tongues Retied: Pacifica Radio and Free Expression, an hour-long documentary examining the origins and effects of the radical right's latest crusade to censor public radio stations and TV series dedicated to discussion of controversial issues is being produced by Ginny Z. Berson and Larry Bensky (Aug 2, 7:00 pm, Aug 22, 8:30 am). We'll also look at some historical incidents for which Pacifica was targeted in the past: The Carlin Case (Aug 9, 11:00 pm); and produced in 1963, Pacifica Investigation by the Senate Internal Security Subcommittee (Aug 10, 11:30 pm); and PBS and the People (Aug 6, 2:00 pm).

Pacifica also plans to broadcast the Corporation for Public Broadcasting's first two Town Hall Meetings on Objectivity and Balance. These meetings could conceivably be manipulated by our right-wing opponents to further stack the deck against Pacifica (Aug 24, 4:00 pm, Sep 27, 5:00 pm. Times tentative at press time).

For programs not listed here,

august**3:00-4:00 pm****Facing the Fallout:
Nuclear Weapons and
the New World Disorder**

This four-part documentary traces the arms race and investigates its legacy. Through interviews conducted in the United States, Russia, Ukraine, Kazakhstan and Europe, the programs document major events of the Cold War and probe the challenges that lie ahead.

Part 1: The Arms Race This program traces the history of the arms race, focusing on the Soviet experience. The impact of arms development on the Soviet and US economies is examined, as well as its effect on political institutions and the environment. The program also looks at the evolution of military planning and political thinking in both countries, and how it affected arms reduction efforts. Liberal use of period music and archival reports of events, such as Khrushchev's visit to the US and the U2 incident make this a lively account. (This episode rebroadcast at 11:30 pm).

Part 2: Cold War Legacies This documentary explores the Cold War's environmental, economic and political legacies. It presents first-hand accounts from victims of the arms race — villagers living near Semipalatinsk, Kazakhstan and Chelyabinsk, Russia as well as residents of eastern Washington, all of whom have suffered from the environmental impact of nuclear weapons production. The program examines the mammoth task of dismantling the Soviet military-industrial complex. Can missile factories be converted to civilian production? Will unemployed nuclear scientists sell their skills to the highest bidder? Will Russia's nascent democracy survive the mass impoverishment caused by "shock therapy" to the economy? (This episode rebroadcast Tuesday at 11:30 pm).

Produced by Michael O'Rourke. (Parts 3 and 4 air Wed and Thur at 11:30 pm; Friday 3:00 pm.)

4:30-5:00 pm Planet Talk

Producer Tina Reimann focuses on the political, economic, philosophical and,

sometimes, purely scientific aspects of the ecological crisis facing the planet and all of her inhabitants. That includes YOU, so tune in and listen to the kind of acute analysis you won't hear anywhere else. Planet Talk — Not just another "green" show!

Voices heard are those of Ukrainian military leaders, Russian defense analysts, persons "on the street" in Kiev and Moscow, and others. Will the new republics live in peace with their neighbors, or will the former Soviet Union become a "Yugoslavia with nukes?" Also explored are the real dangers of ancient nuclear proliferation in a land where chaos reigns and where there are over 30,000 nuclear warheads and hundreds of tons of weapons materials. Can Soviet weapons find their way into the hands of terrorists or dictators? Produced by Michael O'Rourke. (Parts 3 and 4 air Friday at 3:00 pm).

Pacifica Radio
and Free Expression

This hour-long documentary examines the origins and effects of the radical right's latest crusade to censor and possibly abolish those few public radio stations and TV series dedicated to discussion of controversial issues. Pacifica Radio is one of the primary targets. Pacifica's National Affairs Correspondent Larry Bensky uses

excerpts from more than 20 interviews with major participants in the controversy to examine such issues as: Why is Pacifica under attack; who is behind the attack...and who is behind *them*; why are they targeting African-Americans, gays and lesbians, and politically progressive movements. We will also hear more about the upcoming effort in the U.S. Senate, led by Bob Dole and Jesse Helms, to restrict public funding to public broadcasting.

Included in this documentary are: Sheila Tate, Chair, Corporation for Public Broadcasting; David Horowitz and Lawrence Jarvik, Center for the Study of Popular Culture and the Committee on Media Integrity; L. Brent Bozell, Media Research Center; Alex Safian, critic of Pacifica; David J. Salniker, Executive Director of Pacifica, Leann Katz, National Coalition against Censorship, Gerald Horne, Professor of Public Policy at City University at New York, and volunteer programmer at both KPFK and WBAI, and many more.

The documentary is produced by Ginny Z. Berson.
